

► Boost Your Staffing Results

InstaStaff partners with the industry's largest staffing software company, eEmpACT to empower recruiters to match the right people with the right jobs. InstaStaff and eEmpACT's core foundation is based on offering a complete, versatile, and affordable way to increase revenue and boost profitability with a seamless member upload software system, custom invoice and payroll tool and enhanced CRM capabilities with a powerful notification system that enables one recruiter to communicate with tens, hundreds, even thousands of candidates anywhere, anytime, and on any device. Using eEmpACT and InstaStaff together maximizes your efficiency and outreach, directly impacting your bottom line.

► Accelerate contract fulfillment

The InstaStaff communication system empowers your team to effectively contact any number of pre-qualified candidates with job opportunities in minutes. InstaStaff supports all standardized form of communication which allows your message recipients to select how they prefer to be contacted, greatly increasing your call effectiveness.

► Maximize recruiters' time

InstaStaff automates otherwise manual, time-intensive processes, allowing your recruiters to focus on discussing job opportunities with pre-qualified candidates who have indicated their interest and availability. The ability to target communications to interested candidates makes effective use of limited recruiting time.

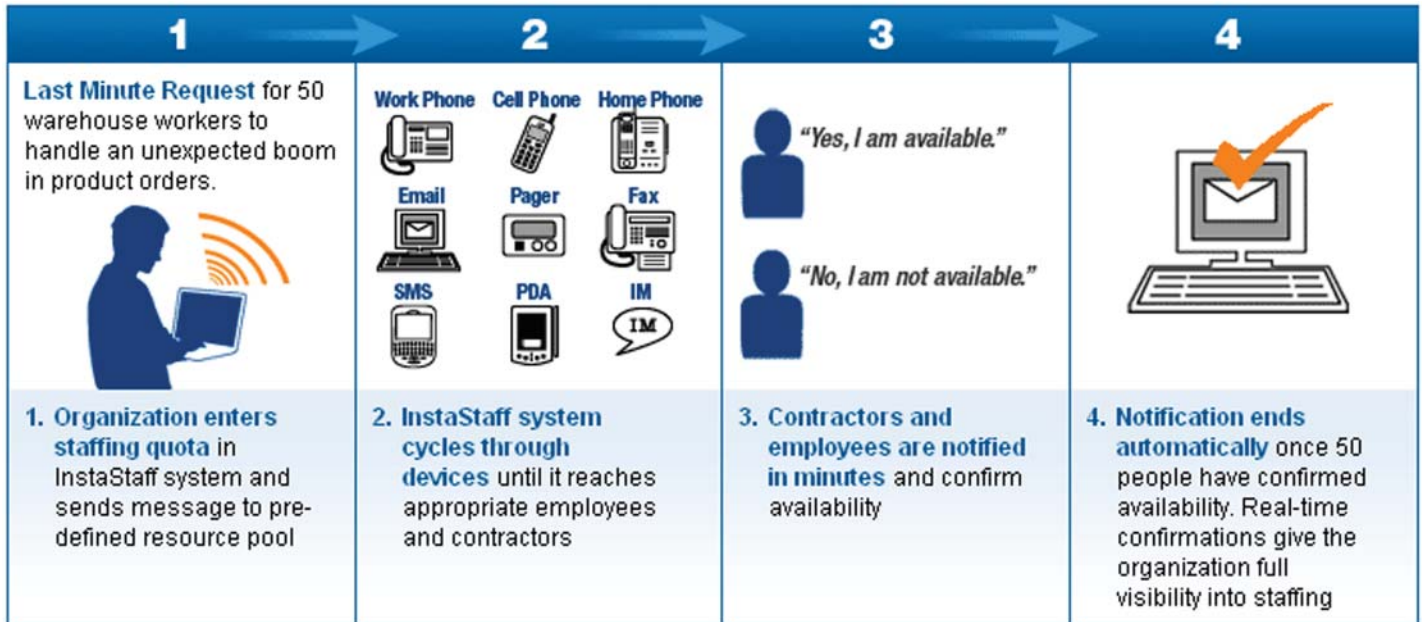

► Manage contact information more efficiently

The InstaStaff communication system simplifies the inherently challenging process of maintaining current contact data for a transient workforce. Through InstaStaff, staffing companies may provide a simple, Internet-based portal for temporary workers to monitor, prioritize, and update their information, providing you with end-user maintained contact information. In addition to bulk uploads of contact data and single-entry data management, InstaStaff and eEmpACT automates the data maintenance process and keeps both systems synchronized.

InstaStaff Benefits

- Actively increase your fill rate, growing revenues
- Improve customer satisfaction, building trust in your service capabilities and generating additional revenue through repeat business
- Enhance operational workflow with eEmpACT's simple, streamlined resume management and database upload tool to manage job fulfillment and accurate contact information
- Fill hard-to-find or just-in-time positions rapidly and efficiently in times of critical need with referral programs
- Manage contact information for a revolving staff more efficiently and improve contact data accuracy

How InstaStaff Works

Robust Features Designed to Meet Staffing Challenges

INSTANT NOTIFICATIONS – Distribute job details, policy changes, and other important information within minutes and secure acknowledgement of receipt.

POLLING – Solicit responses from any number of job candidates, for time-consuming activities, such as gauging availability and schedule training and events.

REAL-TIME REPORTING – View compiled results of your broadcast in real-time with access to rich reporting and archiving features for easy reference at a later date.

CUSTOMER RELATIONSHIP MANAGEMENT (CRM) – Strengthen relationships with applicants by utilizing eEmpACT's applicant tracking system and countless human resources management tools to ensure high-performers receive faster response times with job order fulfillments.

About InstaStaff

InstaStaff is an online, subscription-based communication tool designed to enable staffing companies to expedite contract fulfillment while boosting productivity. With InstaStaff, one recruiter is able to communicate with tens, hundreds, or even thousands of candidates anywhere, anytime, and on any device—including phone, fax, computer, PDA, and pager—using voice and text communications (such as email, SMS, and Instant Messenger). InstaStaff is powered by 3n (National Notification Network).
